

Dear Educational Committee,

Amie Hahn
33 Hinckley St. Mystic, CT 06355

I'm writing to provide my testimony in opposition against SB 1105.

As a behavior analyst and an advocate for children with autism, this bill poses significant concerns to the quality of treatment of children with autism, the most concerning including:

1. The professionals identified in the language are not qualified to provide these services
2. Without proper service delivery students with autism not only will not learn but can regress causing the cost of later treatment and lifelong care to increase

Thank you for your consideration.

Sincerely,

Amie Hahn, M.S., BCBA
